

TEMPERED GLASS SCREEN PROTECTORS FOR TABLETS

The new **TEMPERED GLASS FULL COVER SCREEN PROTECTOR** by **VOLTE-TEL** with only **0,30mm thickness**, it doesn't add extra volume to your tablet and doesn't change the texture of the monitor. However, it protects the monitor from hard scratches and hits. The new **TEMPERED GLASS FULL COVER SCREEN PROTECTOR** has the specificity that it covers perfectly on the screen of the tablet, it has excellent limpidity and doesn't difference the contrast, the brightness and the colors of the screen.

It has **higher degree of hardness 9H** and for this reason is very difficult to break or scratch, especially in compare with the simple screen protectors.

It is made with high precision rounded 3D edges for greater security and avoidance of injuries and even if a strong hit breaks it, it smashes in to very small pieces and does not scatter, just like the windshield of the car, so there is no risk of user injuries or screen scratches. Finally, due to the construction's material, you get rid of the unsightly blisters, that can easily be created when using the simple protectors, as it fits perfectly and easily on your smartphone screen.

Package includes:

- 1 Tempered Glass Full Cover Screen Protector
- 1 cleaning wipe with Alcohol
- 1 cleaning cloth
- 1 dust removal sticker
- Instructions for use
