

# New Brand!

## New cases IDOL 1991 By VOLTE-TEL.

### VELVET TPU

Unique texture, ultimate protection! Minimal style with maximum protection, new **VELVET TPU** cases by **IDOL 1991** and **VOLTE-TEL** are specifically designed to protect your favorite smartphone.

**VELVET TPU** cases by **IDOL 1991** are made of **hard TPU material** for the absorption of vibrations while at the same time they provide a perfect touch feel. They have **internal microfiber reinforcement** in order to protect your device from scratches or hits that can occur during everyday use, with **raised edges all around** for better screen protection. Thanks to their special design, they "embrace" your smartphone while **ensuring full access** to all the functions of the device such as camera, speakers, microphone and charging socket. You are able to talk or take photographs without any problem while your favorite smartphone is still

protected in its case.

Finally, **VELVET TPU IDOL 1991** cases are light and don't add extra burden.
