

SOFTCASE LEATHER MAGNET LOOP CASES

VOLTE-TEL's new universal **SOFTCASE LEATHER** cases stand out, thanks to their modern design, their bright colors and their high manufacturing quality. Their exterior is made of high quality PU leather for greater durability and their interior has a fabric padding for even greater screen protection. They have a **loop with Magnet**, which makes taking the device out of the case easy, but also helps keep the phone firmly in place, avoiding unfortunate falls. The cases can also be used as a **belt case**, thanks to the special strap at their back side. They are available in 2 dimensions **XL (4.5" up to 5.1")** & **XXL (5.0" up to 5.7")** and in **6 colors** to choose from.
