

FAST CARBON USB CHARGING-DATA 2.1A NSP

New **Fast Carbon** high speed charging and data transfer cables 2.1A by **NSP** . They are not tangled, due to the fast carbon cable and they have special outer lining for greater durability and resistance in everyday use. With gold-plated contact connector, which enables 30% faster charging compared to the simple compatible chargers. The cable's length is 1,5m and it is suitable for **iPhone 5/6/7/8 iOS 10** and all devices compatible with them and all smartphones and tablets with a micro USB port.
