

MICRO USB TRAVEL CHARGER VL15 1500mA VOLTE-TEL

VL15 1500mA is the new **MICRO USB TRAVEL** charger by **VOLTE-TEL**. It boasts excellent build quality in accordance with **CE** European specifications, modern design and a small, practical size, which makes it ideal for transfer, be it in a handbag or backpack. This charger will always be by your side! Because it has a longer connector, this charger is ideal for waterproof devices that usually place their charging connector a little deeper. This charger is also ideal for MLS and Caterpillar devices and some tablets of the market. The **cable is 1.2m long and provides 50% quicker charging, compared to a 1000mA charger. VL15** provides protection from **overcharging** and **short circuits**, thus providing greater security during charging, comes in black and white color and is fully compatible with all new smartphones & tablets that have a micro USB charging port.
