

## NEW ADAPTER

### NSP HDMI 1.4 FEMALE TO TYPE C 3.1 MALE 4K & DEX

The smartphone screen is now a digital window in the world. Pictures, videos and other documents you use everyday are included in this small screen, but inevitably there comes a time when you want to share them on a larger screen. With the **NSP HDMI FEMALE TO TYPE C MALE** adapter you can easily and simply **convert a USB Type-C port to HDMI**. To connect your laptop, TV or projector **without complicated processes**.

### Picture and sound in one go!

Use the **NSP HDMI FEMALE TO TYPE-C MALE** adapter to connect your portable device (smartphone / tablet) to your HDTV or monitor, even to a compatible projector, to enjoy up to 4K resolution, high-quality image viewing and audio. It is compatible with all portable devices that have a USB Type-C port and is extremely practical as it does not require external power. Just plug your cellphone into the **NSP HDMI FEMALE TO TYPE-C MALE** adapter to use **applications, access files, edit documents, and play videos on a larger screen**, all using your smartphone as a computer.

Last but not least, it is **fully compatible with Samsung DeX** so you can enjoy all the advanced features of your mobile in a **Desktop environment** without the need to use **Samsung DeX Station**.
