

## ANTI-THEFT ALARM VT-320 FOR UP TO 2 DEVICES

Combat Device Thefts in Your Store with the New **VT-320 Anti-Theft Alarm for 2 Mobile Phones – Tablets & Wearables** by **VOLTE-TEL**. The **VT-320** has been designed to provide a high level of security for your products without hindering customer interaction. It features a **70cm spiral cable** with a base that **allows horizontal and vertical presentation of any device**, as well as **detachable from the central base(Controller)**. This anti-theft alarm is a **wired alarm and charging unit** with an elegant design. It is very easy to install and operate, ensuring optimal security for any **mobile phone, tablet, E-reader, iPod, GPS** and many other devices. The **VT-320** anti-theft alarm consists of the **central base( Controller)** and an additional anti-theft cable, which can be used to charge the existing device or to add and protect a second one. You can also charge both devices simultaneously with the same alarm unit.

Additionally, the **VT-320** can be mounted on a wall, vertical wooden surface or plasterboard, provided the surface is smooth, ensuring the stability of the base.

Finally, to ensure the stability of the device, the alarm's anti-theft cable should be attached to the bottom of the phone, providing balance and security. For the best display device, it is recommended to hold it in your hand rather than leaving it on the anti-theft alarm to avoid the risk of fails.

(For devices with Lighting, TYPE-C & Micro USB charging ports, you will need to obtain the corresponding cable for the anti-theft alarm **LIGHTNING SECURITY: 5205308208768** / **TYPE C SECURITY: 5205308208782** / **MICRO USB SECURITY: 5205308208775**)
