

## NSP N07 ADAPTER USB 3.0 TO RJ45 GIGABIT ETHERNET ADAPTOR 1000Mbps

The **NSP** adapter **N07** **USB 3.0** to RJ45 **1000Mbps** is an **external network card**, suitable for data transfer through Ethernet. Connect it to a USB port in your desktop or laptop and connect the Ethernet cable on the other side. Suitable for Mac and Windows. It can easily replace an old faulty network card. You can also use it as a secondary network card in case you need more than one card or you need to upgrade your old card from 100 Mbps to 1000 Mbps

This particular adapter is perfect for travel, because due to its small size it fits in your pocket.

### Characteristics:

- Small size, easy to carry.
- Plug & Play no need installation.
- Connectivity: USB 3.0 to Gigabit Ethernet.
- Suitable USB 2.0 port as well.
- Compatible with Windows/Mac OSX
- Speed up to 1000 Mbps/100 Mbps/10 Mbps
