

LIME LIGHTNING LONG TO USB 2.4A CHARGING-DATA 2m LUL02 WHITE

The new **Lightning Long to USB-A cable** (model **LUL02**) by **LIME SUCCESSORIES** and **VOLTE-TEL** is a reliable and efficient option for charging and data transfer. Functional yet impressive, it features a new design with a signature **green color** inside the USB connector. This cable is a safe and effective choice for those needing a fast and stable method for charging and transferring data.

The new cables from **LIME SUCCESSORIES** support **Quick Charge 3.0 technology**, providing fast charging at **5V-2.4A**, making them ideal for rapid charging and reliable data transfer between your devices.

The **2-meter-long cable** is built with **high-quality, durable materials**, ensuring long-term use and resistance to wear. Its white shade gives it a clean and modern style, matching any device.

The **LIME LIGHTNING LONG TO USB-A 2.4A** cable is compatible with **iPhones, iPads, iPods**, and **other Apple devices and accessories** with a **Lightning** port for charging and syncing. It features an **extended connector (LONG)**, ideal for use with bulky, durable cases, waterproof devices, and tablets. Additionally, the connector is **reversible**, meaning there is no **"right" or "wrong" direction** as it can be easily inserted from either side!
