

NEW **CARBON** CAMERA PROTECTIVE CASE BY VOLTE-TEL

The first very important accessory you need for your new smartphone is a case that it will not only protect it but will be slick and stylish. The new **CARBON CASE** by **Volte-Tel** is the perfect choice for that! **Slim and light, it fits perfectly, doesn't add any excess volume** and it does not distort the look of your precious smartphone.

The new **CARBON CASE** is made by **durable mat flexible TPU material** so it will protect your smartphone from **drops, bumps and scratches** that might occur on a daily basis. It is also **reinforced with non-slip material** that prevents falls from your hand. The **raised edges** protect your smartphone's screen from drops and flat surfaces.

The "**Camera Protective Design**" protects the camera and the surrounding area with a **protective layer** that is raised slightly above the cameras. This way the cameras **avoid contact with any surface** and possible scratches and scrapes. Furthermore, this case **doesn't show fingerprint stains** thanks to its outer carbon pattern.

The **CARBON CASE** proves to be exceptionally easy to use, as it has **all the necessary ports for the needs of your smartphone** so you can have absolute control.
