

ANTI-THEFT ALARM VT-158 FOR MOBILE AND TABLETS (WITH BATTERY)

Launch mobile phones and tablets safely with the new anti-theft alarm **VT-158** from VOLTE-TEL. It has **1 meter** spiral wire and is designed to provide a high level of security for your products without obstructing consumer contact.

The **VT-158** anti-theft alarm system provides **three levels of security**. **(1)**The alarm will be activated if the device is removed from the sensor. **(2)**If the alarm cable is disconnected, the alarm will sound. **(3)**The alarm will be activated in an attempt to remove the complete alarm.

The **VT-158** anti-theft alarm is a **cable alarm with an ultra-thin battery** and a low-profile design. It's simple to set up and use to assure the finest protection for any **smartphone, tablet, e-reader, iPod, GPS, and other devices**.

The **VT-158** anti-theft alarm is made up of two parts: a **central base (Controller)** and a **sensor**. Connect the sensor connection to the device you wish to protect, then activate the alarm by pushing the button on the central stand, and you're done!

Warn: In case the alarm is triggered, you may disable it by repositioning the activation button using a thin clip-type item or a pin.

Main characteristics:

- Ease of installation and usage
- For use on stands and service benches, this elegant design is ideal.
- There's a built-in speaker.

"Very efficient... For stealthy protection"
