

TEMPERED GLASS 9H 0.30mm FOR SMARTWATCH

Give to your Smartwatch the new level of protection with the “invisible” shield by **Volte-Tel**. The specific Tempered Glass will protect your favorite watch from **the wear of everyday use, abrasions, hits, dust but also fingerprints.**

Manufactured from thin glass (**0.30mm**) which has undergone **special heat treatment** to increase its resistance to impacts, scratches and other kind of damage. With a **high protection factor 9H** in order to prevent the glass from cracking or breaking.

Easy to install and remove without glue using **static technology**, which also eliminates the bubble effect and **firmly enhances your watch screen.**

Its material is processed in a way that even sharp objects such as keys **won't scratch** its surface.

In addition, it's very resistant to pressure, with an impact force of **1.8kg/ cm²** and a limiting power of **5G**.

With this **Tempered Glass 9H 0.30mm** for the screen of your Smartwatch by **Volte-Tel** you have an extra level of protection from scratches or bumps **higher** than a simple protective film, without losing response or sharpness, **enhancing** your watch screen.

Included in the package:

- 1x Tempered glass
- 1x Set small wipes (1x wet and 1x dry)
- 1x Dust absorber (anti-dust sticker)
