

NEW BLUETOOTH **NSP BN221 RETRACTABLE CLIP ON HEADSET** **VIBRATION + ANTILOST**

The new Bluetooth **NSP BN221 RETRACTABLE CLIP ON HEADSET VIBRATION + ANTILOST** comes in refreshed packaging, combining **advanced sound technology** and **unique comfort**, making it the ideal choice for any use. With its sleek and ergonomic design, it offers a **perfect fit** and is made from **lightweight** and **durable materials**. It can be worn very easily in **two ways**: either by attaching it to your shirt with the **clip**, or by hanging it around your neck with the **strap included in the package**.

It features a **cable wrap function (40 centimeters)** which starts from the main body of the device and ends at your ear. To retract the cable, simply press the button, and it **immediately returns**. The **advanced design** of the headset makes it an essential accessory for your daily life, allowing you to connect up to **2 devices simultaneously**, giving you complete freedom of movement.

Thanks to its **discreet vibration**, the Bluetooth **NSP BN221 RETRACTABLE CLIP ON HEADSET VIBRATION + ANTILOST** will not only ensure you never miss an incoming call, but also alert you if the headset **disconnects or moves more than 10 meters away** from your device (**intense blue/red light**). High-quality microphone with **NC technology (noise cancellation)** isolates external sounds, resulting in **crystal clear sound** for those listening to you. You can also easily access **voice assistants on Android or iOS (Siri)**.

With **Bluetooth v5.3 / Class 2** connection for fast sound interaction, a **long range of up to 10 meters**, and a **long-lasting battery with standby time of up to 200 hours and 10 hours of continuous talk time**, you will always be safe wherever you are.

The Bluetooth **NSP BN221 RETRACTABLE CLIP ON HEADSET VIBRATION + ANTILOST** will literally free your hands! With a simple press of a button, you can make **phone calls**, **reject an incoming call**, and **redial** the last number that called you. Additionally, the **power display function** allows you to see the Bluetooth battery level on your phone screen.

Discover the **ultimate freedom of movement** and **audio enjoyment** Bluetooth **BN221 RETRACTABLE CLIP ON HEADSET VIBRATION + ANTILOST** from **NSP**.
