

## ELITE ANTI-RFID BOOK STAND

Get the new stylish **ELITE ANTI-RFID BOOK STAND** cases from **IDOL 1991** and **VOLTE-TEL**, to stand out in each of your appearances while protecting your favorite smartphone. They are made of **high quality PU leather** and have a **magnetic lock**.

In addition to the elegance inside, you will find a slot with **anti-theft coating of RFID-Protection technology** to protect your debit or credit cards from any interception, **even when the case is open**. This slot prevents the **illegal charge of your contactless cards** when you are on the road or on public transport.

**RFID-Protection** technology uses a **special material that blocks the wireless transmission of data** so that the signals transmitted by the card chip is blocked.

Internally the device is held by a **TPU case with velvet lining and raised edges** for better screen protection, while at the same time you can **access all the functions of the device** such as the camera, speakers, microphone and charging socket. You can talk or take photos without any problems while your favorite smartphone is still protected in its case. The **ELITE ANTI-RFID** cases are light, thin, they do not add extra volume and fold into a stand so you can comfortably mscreen.

Protect your device and your privacy with the **ELITE ANTI-RFID BOOK STAND** cases in **black, blue or red** colour.
