

NEW NSP 7 IN 1 METALLIC MULTI-TOOL PEN

The new **NSP 7 IN 1 METALLIC MULTI-TOOL PEN** is a unique multi-tool pen made of lacquered brass, designed to make your tasks easier. Whether you are a professional or a hobbyist, this pen will follow you everywhere and eliminate the need for extra tools.

It features a modern and ergonomic design. This multi-tool pen has a **twist mechanism** and a **non-slip grip** for better handling.

It includes a **D-Type ballpoint pen** (replaceable when empty) available in three different colors: Blue, Black, and Red. It is perfect for sketches and markings even on rough surfaces like pallet wood.

It also comes with a **dual ruler** (centimeters/inches) scaled to 7 cm and 3 inches respectively, a built-in **spirit level**, a precision **stylus** compatible with most touchscreen devices such as smartphones and tablets, and **two types of screwdrivers**—flathead and Phillips—accessible by unscrewing the cap. Unlike other multi-tool pens, the cap can be securely attached to the pen tip while using the screwdriver, ensuring it won't get misplaced.

The **NSP 7 IN 1 METALLIC MULTI-TOOL PEN** is the perfect gadget for architects, building designers, engineers, craftsmen, presenters, or anyone for everyday use. It also makes a stylish gift for any occasion.
