

NEW VOLTE-TEL PHONE BURGLAR ALARM FOR MOBILE-TABLET VT-340 WITH CHARGER/MICRO USB AND MINI REMOTE CONTROL

The new **VT-340 Phone Burglar Alarm** from **Volte-Tel** is designed with a large surface to secure any type of tablet or smartphone. It is the ideal solution for high-traffic areas, offering reliable protection.

The **VT-340 Phone Burglar Alarm** includes a central base (Controller) and an additional anti-theft spiral USB cable with a sensor that connects to the charging port of the tablet or smartphone.

Key Features:

- Easy installation and user-friendly operation
- Elegant design for placement on stands and counters
- Built-in speaker
- Integrated rechargeable battery
- Audible alarm for theft prevention and immediate notification

Package Contents:

- Anti-theft alarm for 1 smartphone
- 1 Anti-theft spiral USB cable
- 1 USB Adapter (2000mA)
- 1 Mini Remote Control
- User manual (in English)

Installation:

Remove the protective film from the 3M adhesive on the bottom of the central base (Controller) and place it on your desired surface. Next, connect the anti-theft spiral USB cable to the central base and the other end to the tablet or smartphone. The alarm features a built-in USB cable that you can plug into a power outlet using the included adapter or into

a computer USB port to charge its integrated battery.

When connected, two indicator lights will turn on: a **blue** light on the left and a **red** light on the right. The **blue** light indicates that the alarm is armed, while the **red** light shows charging status. As the battery charges, the connected tablet or smartphone will also charge. Once the alarm's battery is fully charged, it remains armed even if unplugged from the power source.

If someone attempts to remove the device from the anti-theft base, the alarm will **activate**. You can disarm it using the included **mini remote control**.
