

NEW TRAVEL NSP TN228 DUAL USB WITH EMBODIED CABLE TYPE C 2800mA

Now, you no longer need to worry about your device's battery because **NSP** has created the **NSP TN228 triple charger** with a **built-in 1m USB-C cable** and a **capacity of 2800mAh**. It is **lightweight, compact, and small in size**, so you can easily take it with you anywhere, from your daily routine to a trip. Thanks to this charger, you can **quickly charge** your smartphone or tablet, depending on your device's compatibility, and always **safely**.

With a **dual USB Type-A output of 2800mAh** and an **integrated Type-C cable**, it can simultaneously charge three devices and meet the charging needs of most portable devices or even smart home and entertainment gadgets.

Lastly, it incorporates multiple layers of protection to **prevent overheating, short circuits, overcharging, and overvoltage**, ensuring a seamless user experience.

Specifications:

- **AC Input:** 100-240V (50-60Hz), 0.5A max
- **Type-C Cable Output:** 2.8A
- **USB Ports 1/2:** 2.8A
- **Total Output:** DC 5V 2.8A max
