

NEW BLUETOOTH NSP STEREO BN550 NSPODS TWS HEADSET V5.3 WITH CHARGING-CARRYING CASE

With the new **NSP BLUETOOTH STEREO BN550 with charging-carrying case**, you can enjoy outstanding sound quality. Featuring an **ergonomic semi in-ear design** that weights **no more than 2 grams per earbud**, making them incredibly lightweight and comfortable in your ears.

The new **NSP STEREO BN550 Bluetooth wireless earbuds** are sure to impress you on every level. These innovative True Wireless Stereo (TWS) earbuds connect easily via **Bluetooth v5.3**, providing stable and uninterrupted sound with low energy consumption for extended listening, they provide **high-fidelity audio** with great low frequencies response and **Deep Bass technology**, reducing diaphragm resistance to deliver rich and deep bass without distortion. They fit very comfortably in your ears, making them barely noticeable, and are equipped with a **high-performance microphone located at the bottom of the earbuds** (near the mouth) for clear communication.

With a slim and compact design, the earbuds stay securely in place inside the portable capsule case thanks to **built-in magnets**. The case features a **transparent lid** that provides a full view of the earbuds even when closed. Both the ear-

buds and the case are **IPX4 certified** (protection against rain and dust), allowing you to use them worry-free, whether you are going about your daily routine, carrying them in a bag or traveling.

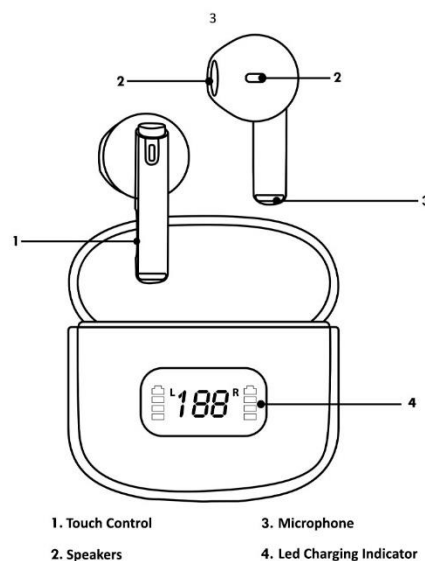

The **NSP STEREO BN550** provide **up to 6 hours** of continuous music playback, **over 5 hours** of talk time and **125 hours in standby**. For example, with just 15 minutes of charging, you can enjoy up to 2 hours of your favorite music or phone calls. These highly comfortable **NSP STEREO BN550** have a **range of up to 10 meters** and allow you to communicate using either one or both earbuds during a call. Additionally, the case features a **LED display** that shows the battery level and percentage for both the case and each earbud, which is also visible on all iOS (Apple) and Android 9 and above devices.
