

NSP N23 USB-C TYPE C TO TYPE C USB 4.0 PD 240W/40GP

N23 USB TYPE C TO TYPE C USB 4.0 CABLE

The new NSP N23 USB-C TO USB-C cable supports up to 40Gbps transfer speeds. You can also charge your USB-C device quickly and safely, as well as to sync your photos, music and data with you existing USB-C compatible device. It features a durable design with gray braided cable, measuring 1.5 meters, that wraps without tangling and supports up to 240W power delivery and exceptional 5K/60Hz resolution and Dual Channel 4K.

Data transfer rate of 40Gbps

It provides extremely fast data transfers, making it an ideal choice for content creators, gamers or professionals aiming to enhance productivity and achieve maximum performance. Experience top-quality connectivity and lightning-fast, seamless transfers with a bandwidth speed of up to 40Gbps, which is 8 times faster than a standard USB 3.0.

Power delivery of up to 240W

Thanks to the Extended Power Range (EPR), this cable delivers up to 240W to charge your devices quickly and effectively. It is designed to charge a wide range of Apple devices in minimal time, so you can keep working without interruption.

One cable for everything.

Upgrade your visual experience and enjoy resolutions up to 5K/60Hz and dual-channel 4K. Whether you're working, gaming or watching your favorite show, you can rely on the new high-performance NSP cable to deliver sharp details and vibrant colors every time.
