ANTI-RFID LEATHER SMART WALLET

The new **ANTI-RFID LEATHER SMART WALLET** case by **IDOL 1991** and **VOLTE-TEL** gives your favorite phone a unique appearance and functionality. Its smart design features an innovative outer slot for storing **business, debit, or credit cards**, along with a space for your cash. Thanks to the **special sliding slot at the back**, you can easily slide it up and down with a **single movement**, transforming the case into a smart wallet.

It also includes an **anti-theft** compartment with **RFID-Protection technology** to safeguard your debit or credit cards from potential data theft. This compartment prevents the illegal charging of your contactless cards by **blocking wireless data transmission**, making it impossible for someone to intercept the signals from your card's chip while you're on the go or using public transportation.

Made from **durable TPU material** to absorb shocks, combined with **PU leather** on the back, the case offers a stylish look and a pleasant feel to the touch, while also protecting against all kinds of impacts and drops.

Additionally, it provides effective protection, with **raised edges** that ensure your smartphone screen doesn't come into contact with surfaces, even if you place it face down.

Finally, it offers **full access** to all the ports and buttons of your smartphone, giving you complete control and easy management of your device, including the camera, speakers, microphone, and charging port. You can talk or take photos without any issues, even while your phone remains safely in the case.

Features:

- **TPU material for shock absorption.**
- **RFID-Protection to keep your debit or credit cards safe from potential data theft.**
- **PU leather exterior that provides a stylish look and a pleasant feel to the touch, while also offering protection against all kinds of impacts and drops.**
