

## VOLTE-TEL VT141

# AI AUTO FACE TRACKING SELFIE STICK TRIPOD DESKTOP GIMBAL 360 ROTATING BLACK

This **multifunctional gadget** is designed to enhance photography and video recording experiences. With **AI-enabled automatic face tracking** and **360° rotation**, it offers flexibility and ease of use in any situation.

### AI Auto Face Tracking:

The artificial intelligence feature automatically **recognizes and tracks your face or body** from a distance of **1 to 3 meters** (whether you are **standing or sitting**), keeping you at the center of the frame during photo or video sessions. Simply activate the gimbal by pressing and holding the main button on the top. The indicator light will turn **green**, and the gimbal will start following you. To temporarily stop tracking, make the **“STOP”** gesture with your hand, and the green light will turn **red**. If you want to pause the movement function, press the left button on the top, and the light will turn **blue**. To reactivate, make the **“OK”** gesture, and the indicator light will turn **green** again.

Rotating and foldable design for versatile shots.

### Easy Connectivity:

This device can be used **without** downloading an app or connecting via Bluetooth. It weighs **only 270 grams** and features a **foldable** design, making it ideal to carry along and capture life's best moments! Additionally, a **detachable mini remote control**, with a range of **up to 10 meters**, assists in taking shots from a distance. The remote connects to your smartphone via Bluetooth. Turn it on by pressing the small button upwards, and the remote's **blue** light will start flashing. Once paired with your smartphone, the light will go **off**, and you're ready to use it!

**Multi-functional Use:** The device can serve as a selfie stick, a tripod, or a desktop gimbal, as it is equipped with a **standard 1/4" screw thread** at its base. Ideal for various uses such as selfies, live streaming, video calls, and vlogging.

The detachable phone mount can also be used as a **phone stand** on a desk. It **rotates 360°** for selecting between **horizontal or vertical** camera modes, and the neck can also be adjusted to **multiple angles**. Wherever you go, you'll always be the center of attention! The phone clip can extend **from 6.5 cm to 10 cm** in width to securely fit most smartphones.

**Image Stabilization:** An integrated stabilization system with **anti-slip silicone** at the bottom of the base provides smooth, professional-quality shots, reducing vibrations and instability.

**5205308360329**

**Built-in Rechargeable Battery:** Powered by a **1200mAh** rechargeable battery, the **VOLTE-TEL VT141 AI Auto Face Tracking Selfie Stick Tripod Desktop Gimbal 360 Rotating Black** charges via a **USB port**. Once fully charged, it lasts from **2 to 5 hours**. The red indicator light remains on during charging and turns off once charging is complete.
