

## **LIME USB-C TYPE C LONG TO USB 4A CHARGING-DATA 1m LUC03 WHITE**

The new **USB-C Type C Long to USB-A** cable (model **LUC03**) by **LIME SUCCESSORIES** and **VOLTE-TEL** is designed to provide **fast and reliable charging and data transfer for your devices**. Functional yet impressive, it features a new design with a signature **green color** inside the USB connector. This cable is a safe and effective choice for those who need a fast and stable method for charging and transferring data.

The new cables from **LIME SUCCESSORIES** support **Power Delivery 2.0** and **Quick Charge 3.0** technologies, offering fast charging at **5V-4A** or **20V-3.4A**. Additionally, their power output reaches up to **68W**, making them ideal for rapid charging and reliable data transfer between your devices.

The **1-meter-long cable** is built with **high-quality, durable materials**, ensuring long-term use and resistance to wear. Its white color gives it a clean and modern look, matching any device.

The **LIME USB-C TYPE C LONG TO USB-A 68W/4A** cable is compatible with a wide range of devices that feature a USB-C port, such as **smartphones, tablets, laptops, power banks, cameras, and more**. It is also reversible, meaning there is no **"right" or "wrong"** direction, as it can easily be inserted from either side. Additionally, the cable features an **extended connector (LONG)**, perfect for bulky, durable cases, waterproof devices with hard-to-reach ports, Caterpillar devices, and some rugged tablets on the market.
