

NEW NSP N27 CAR HOLDER FOR MOBILE PHONES AIR VENT 360 ROTATING UNIVERSAL

The **NSP N27 AIR VENT CAR MOUNT 360 ROTATING UNIVERSAL** is the ideal mount for any driver looking for a **reliable, user-friendly, and stable solution** for their mobile device. It easily **attaches to the car's air vent** and features a range of functionalities that make it extremely simple to use, such as **one-handed operation, easy installation** and removal of the phone **with the press of a button**, and **adjustable arms**. Your phone remains **stable and accessible**, even in the most demanding driving

conditions, thanks to the **innovative features of this mount**.

The **NSP N27** is designed to simplify phone use while driving, without diverting your attention from the road.

Unshakeable Stability
Unique design hooks onto vent and locks securely in place.

Stabilizing rubber mounting arm prevent damage to vent blades.

The **installation** of the mount in your car is **simple and quick, requiring no tools**. Simply adjust the expandable hook to fit the dimensions of your air vent and secure it in place.

The mount **features a 360° rotating head**, offering **complete flexibility** for any viewing angle of your phone, **whether in vertical or horizontal orientation**. It is compatible with most smartphones on the market,

up to 6.8 inches.

The arms and the surface around the hook of the mount are **lined with rubber padding**, providing **shock absorption and excellent grip, preventing movement or scratches** even on rough roads or during sharp turns.
