

**New IDOL 1991 Cases  
 by VOLTE-TEL**

**CRISTALYTE TPU**

A new, modern, and highly shock-absorbent case, the **CRISTALYTE TPU** by **IDOL 1991** and **VOLTE-TEL**, is here to impress! Crafted from premium-quality durable **TPU + Acrylic Gloss material**, it is built to last. This ensures your device is **effectively protected** against potential threats such as **scratches, impacts, and dust**, while the optimized materials resist yellowing over time.

The electroplated side volume buttons add a touch of elegance, while their **ABS material ensures long-lasting durability**. Inside, the case features small, perimeter holes that allow it to **"breathe"**, preventing unsightly "spots".

At the same time, it provides effective protection, as its **raised edges ensure that your smartphone's screen doesn't come into contact with surfaces, even**

**when placed face-down.** As for the rear camera, the **Camera Guard** protects it while preserving the quality of your photos.

Finally, the case offers **full access to all ports and buttons on your smartphone**, allowing you to easily and comfortably manage your device. You can use the camera, speakers, microphone, and charging port effortlessly, even while your phone remains protected in the case. Additionally, the buttons are robust with a metallic finish.

**Features:**

- **TPU + Acrylic Gloss Material:** Long-lasting and retains clarity.
- **Raised Edges:** Extra protection for the screen and camera.
- **Perimeter Holes:** Prevent unsightly "spots."
- **Air Cushion Technology:** Shock absorption for drops.
- **Durable Buttons:** Metallic appearance for added elegance

**WATER RESISTANT**

Water droplets do not enter the material but remain on its surface.
